DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Tsai (US 5,982,735). As per claims 1 and 3, Tsai shows an apparatus in figures 1 and 2, for example, for controlling an optical pickup 20. The apparatus includes adjusters 50 that are adapted to upwardly and downwardly move the each end of the main and sub shafts 40 & 30 supported thereto to separately control heights of the ends from a deck base 10. An optical pickup 20 is mounted at its opposite ends on the main and sub shafts 40 & 30, whereby the parallelism and a certain distance between the optical pickup 20 and an optical disc can be maintained by controlling tilts and heights of the main and sub shafts 40 & 30.

Each of the adjusters 50 includes a casing 51 fixed to a deck base 10 next to four corners of an opening formed at the deck base 10, and having an inner space open 552 downwardly and a gate opening 551 at its side. The inner space and the gate opening 551 receiving an end of the main shaft or the sub shaft; a spring disposed between the casing 51 and the end of the main shaft or the sub shaft to bias the end downward. A base plate 58A attached to a lower surface of the casing 51 to prevent the main shaft or the sub shaft from is separated; and an adjustable screw 53 tightened to the base plate 58A to move the end of the main and sub shafts 40 & 30

upward. In column 3, a line 12-22, Tsai also discloses that there are *four* adjusters 50, 60, 70 and 70.

Response to Arguments

3. Applicant's arguments filed March 23, 2004 have been fully considered but they are not persuasive. In the paragraph bridging pages 6 and 7, applicant asserts that Tsai discloses only four adjustable supports. Contrary to applicant's assertion, Tsai does in fact disclose four adjustable supports, as noted *supra*, and discloses in column 3, lines 21 and 22.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
